

High Power LED Light

High Power LED Light Geo Bulb-ZMLED2

The first 60-watt direct replacement bulb, which is of Premium Quality High Brightness (PQ-HB) uses less than 8 watts. The GeoBulb is the same size as a conventional incandescent bulb suitable for direct replacement in any indoor open fixture. It gives out more light than a standard 60-watt bulb but uses less than 8 watts. LED bulbs can last for 3 years of continuous use or 10 years of about 8 hours per day. Every part of the GeoBulb is built for long lasting durability. The GeoBulb is the first bulb built to withstand 10 years of use.
