LED Light Bulbs PAR20 LED Spotlight

PAR20-ZMLED1 LED Spotlight

At only 2.5" in diameter the ZMLED1-PAR 20 LED Light Bulbs fit just about everything from small track light fixtures and reading lights to small ceiling cans. The 36 super-bright white LEDs are combined with a real glass lens to put out a beautiful almost true white light. Choose between the spotlight model for a more focused beam and the floodlight model for a spread-out dispersed light. Either way, both PAR 20 LED light bulbs work with a dimmer switch, and add a nice decorative glow wherever you decide to use them.
